Features Index 1977

BUILDINGS, COMMERCIAL
Business Complex Designed To Reduce Operating Costs; July/August, p. 30.
Life Safety System Designed For A 29-Story Building; May/June. p. 24.
Transformers Lifted To Top Of Bank Computer Center; July/August, p. 42.

COMPUTERS
Computer System Manages Engineering Drawings; January/February, p. 36.
Computerized Panel Schedules Save Manhours; May/June, p. 31.

CONTINUITY OF SERVICE
Electrical System For New Jersey Sports Complex; January/February, p. 14.
Emergency Airport Power Supply Switches In Four Cycles; September/October, p. 25.
Life Safety System Designed For A 29-Story Building; May/June, p. 24.

CONTROL AND SWITCHING
Computerized Panel Schedules Save Manhours; May/June, p. 31.
Control Of 12-kV Electrode Steam Generators; March/April, p. 44.
Customized Enclosures Put Electric Furnace Service In A Tight Spot; November/December, p. 16.
Demand Control Is A New Game Plan For Utilities; September/October, p. 32.
Emergency Airport Power Supply Switches In Four Cycles; September/October, p. 25.
Mobile Diesel-Electric Generators Provide Emergency Power; September/October, p. 38.
Modern Control Panels Allow One-Position Monitoring And Control; November/December, p. 34.
Switchgear And Substations Receive "Double-Ended" Support In Russian Ammonia Complex; November/Decembe', p. 28.

ELECTRIC HEATING
Business Complex Designed To Reduce Operating Costs; July/August, p. 30.
Electric Heat Is Stored For Ohio Warehouse; May/June, p. 30.
Electrical Design Of A Modern Mosque; March/April, p. 38.
Modern Church Is All Electric; January/February, p. 32.
Control Of 12-kV Electrode Steam Generators; March/April, p. 44.

ENGINEERING DESIGN AND CALCULATIONS
Calculations Are Simplified To Determine Catenary Hanger Lengths; September/October, p. 16.
Sequential Logic Diagrams-A System Design Tool; March/April, p. 32.
Standard Building Concept Cuts Construction Time; July/August, p. 24.
Upgraded Underground Cable Solves Failure Problem; July/August, P. 18.

FIRE ALARM AND LIFE-SAFETY SYSTEMS
Life Safety System Designed For A 29-Story Building; May/June, p. 24.
Modern Church Is All Electric; January/February, p. 32.
Put Smoke Detectors In Their Place; May/June, p. 38.

GROUND FAULT PROTECTION
Do Conductors Protect Themselves? September/October, p. 44.
Switch The Neutral-Yes Or No?; January/February, p. 42.

LIGHTING
Business Complex Designed To Reduce Operating Costs; July/August, p. 30.
Chicago Relights 3000 Miles of Residential Streets; March/April, p. 18.
Effective Hospital Lighting; May/June, p. 43.
Electrical Design Of A Modern Mosque; March/April, p. 38.
Electrical System For New Jersey Sports Complex; January/February, p. 14.
Emergency Airport Power Supply In Four Cycles; September/October, p. 25.
Inverter System Supplies Emergency Power For Theater-In-The-Round; September/October, p. 21.
Lighting Control Conserves Energy; May/June, p. 18.
Lighting Peachtree World Of Tennis; March/April, p. 28.
Low-Pressure Sodium Luminaires Selected For Treed Area; July/August, p. 36.
You Can Design Better Lighting Systems; November/December, p. 42.

MEDICAL FACILITIES
Effective Hospital Security Lighting; May/June, p. 43.
Highest Reliability Stressed For Desert Hospital Electrical System Design; November/December, p. 22.
Hospital Emergency Power Systems; January/February, p. 22.

NATIONAL ELECTRICAL CODE
Hazardous Areas Need Proper Classification For Safe Operation; November/December, p. 36.

STANDBY AND EMERGENCY POWER
Business Complex Designed To Reduce Operation Costs; July/August, p. 30.

Features Index

Electrical System For New Jersey Sports Complex; January/February, p. 14.

Emergency Airport Power Supply Switches In Four Cycles; September/October, p. 25.

Highest Reliability Stressed For Desert Hospital Electrical System Design; November/December, p. 22.

Hospital Emergency Power System; January/February, p. 22.

Inverter System Supplies Emergency Power For Theater-In-The-Round; September/October, p. 21.

Mobile Diesel-Electric Generators Provide Emergency Power; September/October, p. 38.

Author Index

Ackerman, J.M., Ackerman Engineers, Standard Building Concept Cuts Construction Time; July/August, P. 24.

Browne, David L., Kaiser Engineers, Modern Control Panels Allow One-Position Monitoring And Control; November/December, p. 34.

Buckley, C.E., Chicago Bureau of Electricity, Chicago Relights 3000 Miles Of Residential Streets; March/April, p. 18.

Buckley, C.W., Pacific Gas And Electric Co., Computer System Manages Engineering Drawings; Janruary/February, p. 36.

Caramanico, D.L., Day & Zimmerman, Inc., Calculations Are Simplified To Determine Catenary Hanger Lengths; September/October, p. 16.

Cheponis, J.J., Ewing Cole Erdam & Eubank/Clauss & Nolan, Electrical System For New Jersey Sports Complex; January/February, p. 14.

Clanton, N.E., Orr-Schelen-Mayerson & Associates, Mobile Diesel-Electric Generators Provide Emergency Power; September/October, p. 38.

Conroy, John F., Palm Springs Desert Hospital, Highest Reliability Stressed For Desert Hospital Electrical System Design; November/December, p. 22.

Corcoran, P.J., Hixson, Inc., Do Conductors Protect Themselves?; September/October, p. 44.

Doran, Paul, Ewing Cole Erdman & Eubank/Clauss & Nolan, Electrical System For New Jersey Sports Somplex; January/February, p. 14.

Euler, Marvin H., James Associates, Customized Enclosures Put Electric Furnace Service In A Tight Spot; November/December, p. 16.

Fenton, E.E., Orr-Schelen-Mayeron & Associates, Mobile Diesel-Electric Generators Provide Emergency Power; September/October, p. 38.

Frost, J.L., Pacific Gas And Electric Co., Computer System Manages Engineering Drawings; January/February, p. 36.

Hadji, George, Hadji & Associates, Business Complex Designed To Reduce Operating Costs; July/August, p. 30.

Hudgens, E.B., Jr., Allen & Hoshall, Inc., Hospital Power System; January/February, p. 22.

Lies, J.R., Commonwealth Edison Co., Control Of 12-kV Electrode Steam Generators; March/April, p. 44.

Lo, S., Daniel, Mann, Johnson & Mendenhall, Computerized Panel schedules Save Manhours; May/June, p. 31.

Loewe, Robert, Electrical Generating Systems Marketing Association, Hazardous Areas Need Proper Classification For Safe Operation; November/December, p. 36.

Lynch, Raymond, Walk, Haydel & Associates, Inc., Sequential Logic Diagrams-A System Tool; March/April, p. 32.

McDonald, David, Love, Friberg & Associates, Inc., Lighting Control Conserves Energy; May/June, p. 18.

Matthews, John, Matthews and Associates, Lighting Peachtree World Of Tennis; March/April, p. 28.

Moses, R., Daniel, Mann, Johnson & Mendenhall, Computerized Panel Schedules Save Manhours; May/June, p. 31.

O.Neil, J.E., Westinghouse Electric Corp., Substation And Apartment To Share Same Pad; March/April, p. 24.

Owens, Ken, Special Projects Editor, Demand Control Is A New Game Plan For Utilities; September/October, p. 32

Pasek, Frank, Rixson-Firemark, Inc., Put Smoke Detectors In Their Place; May/June, p. 38.

Rothermel, E.H., Hawaiian Electric Co., Inc., Substation And Apartment To Share Same Pad; March/April, p. 24.

Ruud, Alan J., Specified Products, Inc., You Can Design Better Lighting Systems; November/December, p. 42.

Seltzer, Morton, Robert and Company Associates, Emergency Airport Power Supply Switches In Four Cycles; September/October, p. 25.

Shevelenko, Daniel, Zenith Controls, Inc., Switch The Neutral – Yes Or No?; January/February, p. 42.

Sopkin, Louis, John Dollo & Associates, Inc., Upgraded Underground Cable Solves Failure Problem; July/August, p. 18.

Stubbs, J.W., Barnard & Burk, Inc., Switchgear And Substations Receive "Double-Ended" Support In Russian Ammonia Complex; November/December, p. 28.

Vint, J., Onan Corp., Hospital Emergency Power Systems; January/February, p. 22.

Wang, P.M., Ackerman Engineers, Standard Building Concept Construction Time; July/August, p. 24.
